**Septien Entertainment Group** is a complete turn-key operation for artists. Besides offering contemporary education for the vocalist and instrumental artist, Septien offers management, booking, and full HD recording studios. An artist learns techniques in commercial vocal style, instrumental performance, songwriting, stage presentation (body movement and speech), and technical aspects of studio recording (pre-amp choices, mic usage, etc.). Additionally, eligible artists are booked on gigs at various venues, festivals, and studio sessions that will enhance the vocalist's performance skills.

Septien's Mission: to produce a voice like no other...to produce an act like no other... to develop pure tonal ability and dexterity of the vocal instrument. Our greatest goal is to educate our singers (children, teens, and adults) about the music industry so they may choose the best path to take.

Beginning students launch their training with micro group study of the vocal instrument. They sing with peers their age and learn the art of commercial voice in weekly lessons. In addition, Septien offers summer camps, workshops and vocal training CD's available to the public. Those preferring private study audition with one of our vocal coaches who evaluate artists based on harmony, scat, and register skills. Those who desire private coaching with Linda Septien must have professional vocal skills and a desire to pursue a career in music. Any artist may call our offices to discuss the best option for their skill level and goals.
